

Mr. Deane called up the bill to incorporate the Pittsford Iron Co., when sundry amendments were made. The bill was then read a second time, and on so as to subject the charter to all general laws relating to corporations. On motion of Mr. Deane, the bill was further amended, so as to limit the business of the Company to the manufacture of iron, and as amended, the bill was ordered to a 3d reading.

Adjourned.

Poor Patriotic.

A gorgeous carpet has just been finished at Glasgow, Scotland, for the White House at Washington, which weighs over a ton and is valued at \$1,500. It is to take the place of a magnificent American Carpet made at Thompsonville, Conn. We coincide with the opinion elsewhere freely expressed, that President Pierce shows poor taste and poor patriotism in this matter. He has of course a right to furnish his house as richly as he chooses, but this supplanting the products of American labor with foreign manufactures is an unnecessary slur upon American artisans.

ITEMS AT HOME AND ABROAD.

—SHOCKING MURDER.—At Louisville, Ky., lately, Mr. Butler, principal of the High School, corrected a pupil by the name of Ward, one of the first families in the place. Next day two brothers of the same family entered the school room, and while one with a bowie knife assaulted one of the teachers, the other after a few words drew a pistol and shot down Mr. Butler, wounding him mortally over the heart. Mr. Butler was a young man of uncommon promise with a wife and young child.

The Wards have been arrested on a charge of murder.

—RUE'S DOCTOR.—A boy 15 years old at East Brookfield, Mass., a few days since procured a bottle of Cherry Rum and in company with another boy drank nearly the whole of it. He was found insensible and died next day. A steamer died last week in Troy, N. Y., from the fatal effects of ardent spirits drunk by him on a wager with another man. A physician was promptly summoned, but the unhappy man was beyond the reach of succor.

—NOVEL IDEA.—At a late agricultural fair at Augusta, Georgia, a premium was offered for "the best looking baby of native growth, fourteen months old" and a little damsel took the prize, a silver cup. Hereafter at the fair of that State, a \$50 premium will be awarded to the finest specimen of miniature humanity exhibited. It is expected to have a great effect on the baby crop in those parts.

—A SLIPPERY PLATFORM.—A "Free Sinner" in a letter to the *Rutland Herald*, speaking of the Barbers, Fields and Howells of his party, says: "We are glad that the traitors are off the Platform," for it was rendered so slippery by the alms of their political turpitude that honest men could with difficulty stand on it. All weak of them is, to keep off."

"The wicked stand on slippery places," says the Good Book, &c., &c.

—CHANGES.—The *Woodstock Mercury* appears in a somewhat enlarged and improved form. The *Stanton Herald*, which for a year past has been published by Rev. A. J. Sampson, is hereafter to be published under the title of "Franklin County Herald," by Messrs. L. H. & H. N. Drury, who announce that it is to be a Democratic Journal.

—MERIDIAN'S MOTHER TONGUE.—A correspondent of the *Windsor Journal* gives the following specimen of Speaker Needham's English.

"This petition of which the object of it has just been stated, will be referred, if there is no objection to the contrary, to the General Committee." The phrase "if there is no objection to the contrary" is a favorite with Mr. Speaker.

—WANTED.—A new Cushing for the seat of Government. So says the *Utica Observer*, a Free Soil paper.

The present Cushing is found to be altogether too "hard" for comfort.

—ARITHMETIC.—A Southern paper says General Jackson's Cabinet was a unit; but the Cabinet of General Pierce is a cypher. A Western editor, however, thinks that it is composed of vulgar fractions.

—A HINT.—The *Cleveland Herald*, since Mr. Bronson's denunciation for "insubordination," proposes as a heading to all communications hereafter to be issued by President Pierce, the following *anathema* hurled years ago upon a rebellious subject: "Upon thy belly shalt thou go, and dust shalt thou eat all the days of thy (official) life."

—DETENTION OF LETTERS IN THE POST OFFICE.—Suit has been instituted in New Orleans, against the Post-master of that city, Mr. W. G. Kendall, claiming damages in the sum of \$500, for loss occasioned by the unlawful detention of a letter in the post office. It is alleged that a letter with notice of a shipment of lemons, was deposited in the office Sept. 11th; that the plaintiff applied for it repeatedly and was told there was no such letter. Eight days afterwards it was advertised, and in the mean time the lemons had become spoiled. It is said that hundreds of other suits of a similar nature are about to be instituted.

—ARRESTED.—Yankee Sullivan, one of the Boston Corner prize fighters, has been arrested in New York, for the purpose of being passed over to the authorities of Massachusetts for trial. His friends have got out a writ of habeas corpus, in order to get him clear, but have not yet succeeded in that.

—LADIES ATTEND.—"Frederick L.," who says he is a young man of an affectionate disposition, and who wishes to obtain some young lady with whom he would be able to live in a state of continual blissfulness, advertises accordingly in a New York paper—Apply early.

—A man, who shall be nameless, announces that he shall henceforth do business strictly on the cash principle. In future he will not even "trust his own feelings."

—GOOD HUMOR.—Good humor is a bright color in the cheek of life; but so seldom only can it be a first color. A person who is the slave of selfishness has so many wants of his own to be supplied, so many interests of his own to support and defend, that he has no leisure to study the wants and interests of others. It is impossible that he should be happy himself or make others around him so.

—DROWNED.—A man and his wife, Cincinnati, resident near Champlain Village, were found drowned in the river, the other day, a short distance below the rapids. The man had gone over the evening previous, in a boat, with the intention of bringing his wife from the other side, where she had been employed through the day, and on his return, it is supposed the boat was upset by some mishap, and the parties precipitated in the stream. —*Plattsburgh Rep.*

—PRESENT TO MRS. STOWE.—Dr. McGill, the Governor of Maryland, in Florida, recently presented to Mrs. Harriet Beecher Stowe (through Moses Shepard, Esq., of Baltimore), a massive ring of African gold, and African manufacture. Its reception is acknowledged in the *Independent*, without, however, letting the readers of that paper know the position Dr. McGill holds, or even that he resides in Liberia.

—TWADDLE.—Twaddle is not simply nonsense; it may be sense in the wrong place. —*Gothic.*

—THE CRYSTAL PALACE.—The directors of the Crystal Palace announce that their pecuniary success has been such that they are impelled to keep it open during the winter. From the first of September to the present day the receipts have averaged \$4000 or more per day, while the expenses are \$6000. The receipts for the fortnight ending on the 22d inst., were \$58,000. The Palace is to be heated with stoves.

—THE FISHING GROUND.—The Halifax papers say that about one hundred sail of United States fishermen were encroaching upon the fishery at Fox Island, in pursuit of an immense school of mackerel, and were committing flagrant depredations upon the property and persons of the fishermen belonging to that place and neighborhood. A ship of war had sailed to protect British interests. There may be more trouble there yet.

—RETIREMENT.—Mr. W. P. CANTWELL, the able and gentlemanly editor of the *Montreal Star* has retired from the Editorial chair of that paper, in consequence of his intended removal from Montreal. Under his charge the *Star*, in an existence of but six months, has obtained a permanent and prominent footing among the journals of the Province.

—SO SAYS.—The Grand Jury of Montreal have been discharged, without finding indictments against the Mayor of that city or the military officers who were said to be implicated in the riot in that city and the killing of several persons.

—MODERN SACRIFICES.—Before leaving Troy, King Mendham offered his daughter as a victim to the gods, in order to win propitious breezes for the voyage home. We are reminded of this in modern society, when we hear of some match-making parent sacrificing his daughter to raise the wind.

—FATAL RAILROAD ACCIDENT.—On Monday last, while four men were putting a lumber car, near the Depot, in this village, another car which was detached from their rear, moved slowly along unnoticed by them, and a man by the name of Dumas was crushed to death. He had left a wife and children in Canada, and had just engaged to work for the Company that morning. Another man, by the name of Asselin, had also been killed by the same train, which, owing to notification having been in was amputated two or three days ago, by Dr. Nelson, at the shoulder joint. The accident is said to be the result of sheer carelessness in not "breaking" the car in due time. —*Plattsburgh Wkly.*

—A PAIDABLE HIT.—In sundry shop windows, yesterday, a new caricature under a lamp, which we have had a good laugh at. It illustrates the old story how the Irishman killed the toad. Paddy, as the fable runs, was going home, with a scythe over his shoulder, and had his dignity affronted, in some way or another, by a toad that crossed his path. Pat determined to slay the reptile, and raised scythe for that purpose, but, unfortunately, the deadly weapon cut off his own head. In the caricature, Collector Bronson figures as the toad, full in the path of a gentleman whose head, bearing a wonderful resemblance in face to Charles to President Pierce, is represented as having been cut off by mistake. The astonishment of the face, after the blunder of decapitation, is cleverly depicted, and there is a *vis expression* of delight in the collector's aspect which is highly characteristic. —*A. Y. Sunday Times.*

From Europe.

The Steamship *Africa* arrived at New York on Friday bringing warlike news. Hostilities between Russia and Turkey had not actually commenced, but military preparations were going on with great vigor on both sides of the Danube, and war was inevitable.

The allied fleets had been ordered to Constantinople. Volunteers were swelling the Moslem armies, and jewels, money and lands, as voluntary gifts, were flowing into the Turkish treasury to an immense amount.

The Russian Ambassador at Paris has left it necessary to contradict the statement that the Car had threatened "a war of extermination" against the Turks. The Car (manufactured) rumor now is that the Car will, in two or three days, issue a new manifesto hallowing that all his efforts in favor of peace have been disregarded by the Turks.

Here is a hint given through *The London Daily News*.

Turkey wants money, and America has too much money. Turkey has more territory than she can well keep, and America has a national thirst for extension of territory.

Why don't Turkey sell the Yankee a port? It might both pay and please Brother Jonathan very well, if the spot was well chosen, while freedom in Europe would find a new rallying point.

The Kosztka case continues complicated. The United States Consul refused to consent to Kosztka's shipment to America, under the conditions imposed by the Austrian ambassador, and it seems that in the mean time he still remains a prisoner in the French hospital, though a private letter says he had actually embarked. What is the exact truth remains to be seen.

One hundred and thirty five thousand pounds of Maple Sugar were made in Wilmington, Vt., the present year.

Gov. FAIRBANKS returned to his home from Montreal on Friday afternoon, the 28th ult. He was greeted on his arrival by a salute of 31 guns, and the powder used on the occasion was procured, and the guns worked, we understand, altogether by men of his own color. He is the recently opposed to him in politics, and the recently appointed postmaster, together with a very few of his political friends. A neighborly and magnanimous spirit is sometimes exhibited in quarters where it is the least expected. —*Plattsburgh.*

SIR ARTHUR COOPER, on visiting the French capital, was asked by the surgeon *en chef* of the hospital, how many times he had performed some wonderful feat of surgery. He replied, that he had performed the operation thirteen times. "Ah, but Monsieur, I have done him one hundred and sixty times. How many times did you save his life?" continued the curious French man, after he looked into the Wankamanzement of Sir Arthur, and the English man, "saved eleven out of thirteen. How many did you save out of a hundred and sixty?" "Ah, Monsieur, I lose them all; but de operation was very brilliant." It is hard for a man who has seen England and France both in motion, to forget this story.

CAMBRIDGE CATTLE MARKET.

At market 3187 Cattle, about 2187 Bevers, and 1000 Steers, consisting of Working Oxen, Cows and Calves, Yearlings, Two and Three Years Old. Prices: Market Beef—Extra, 85c per cwt; 1st quality, 82c; 2d quality, 80c; 3d quality, 78c; ordinary, 75c. Fat Cattle—Extra, 85c; 1st quality, 82c; 2d quality, 80c; 3d quality, 78c; ordinary, 75c.
